

Quick Connect

For Rigid Riser Tubes

Pressure Management, Simplified:

Clear, easy-to-clean detachable tube offers a game-changing solution for poultry growers.

Advantages

✓ Performance & Maintenance:

Effortless detachment simplifies cleaning and provides a clear view of the float ball for accurate water supply monitoring.

✓ Operational:

Ability to remove tubes prior to bird processing without disrupting water supply.

✓ Longevity:

Durable design prevents damage and extends product lifespan, reducing maintenance costs.

✓ Compatibility:

Adapts to all flex tube nipple systems on the market for seamless integration and flexibility.

Flow Solutions

Technical Specifications

- Suitable for 40-60 cm clear rigid tube lengths
- Adapts to 12 and 16 barbed, slick or 1/4" male threads
- Pressure tested up to 4 bar during flush mode
