

## NPT Thread Hose Fittings FDA Certified

### Technical Info:

#### Working pressure

Up to 14 BAR  
(200 psi) at 68° F

#### Temperature

(-)4° - 230° F  
(subject to application)

#### Fitting's dimension

Available in wide  
range.  
See general catalog

#### Material

Nylon 6-6

### Benefits:

- **FDA Approval:** FDA 21 CFR approved for food contact, ensuring safety in food industry applications.
- **Stringent Standards:** Meet the highest standards for food safety, hygiene, and quality, complying with RoSH, REACH, and TSCA regulations.
- **Leak-Free Performance:** Smooth flow of fluids without leaks, ensuring efficient operation.
- **Built to Last:** Strong and durable. Providing reliable performance even in demanding environments.
- **High Impact Resistance:** Can withstand rough handling and harsh conditions, minimizing the risk of damage and ensuring longevity.

Note: For securing the tube onto the fitting barb, it is advisable to utilize Tefen's snap clip or a comparable metal or plastic clip, ensuring a tight and proper fit.
