

Flow Products

Special Conical Spray Nozzle 1/8" NPT For Aeroponic application

Technical Info:

Working pressure

2 - 10 Bar
29-145 psi

Spraying cone angle

120°

Marking

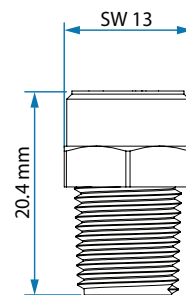

22 120F

Raw material:

Acetal

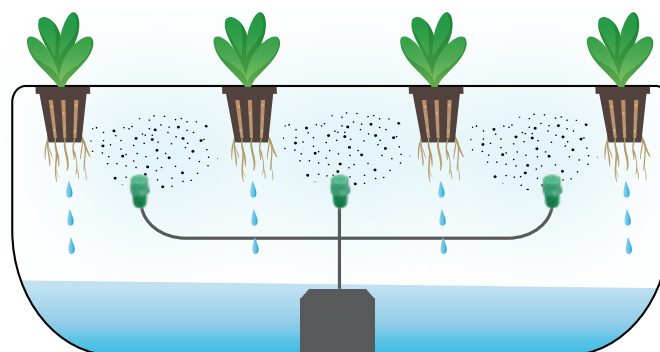

Droplet size:

50-60 Micron @ 3 bar (43 psi)

Benefits:

- **Wide Distribution Angle:** ensures that nutrients and water are evenly distributed around the plant root zone.
- **High Efficiency for Maximum Growth:** providing a consistent and precise distribution of water and nutrients in a micron droplet size.
- **Water-efficient and Eco-friendly:** using water resources efficiently and minimizing wastage.

- Conical nozzle- 22210221207
- Conical nozzle with Non-Drip- 22211221207

- Optional with External 100 [mesh] nozzle filter
- Optional with Internal 200 [mesh] nozzle filter
