

Tefen Solutions for Disinfection Gates

Benefit from a cleaner environment with Tefen Products

Ensure your livestock's health and wellbeing with an effective **disinfection gate and Tefen products**. Just place a suitable arch at the entrance to your breeding farm and let the Tefen pumps, nozzles, tubes, and fittings do the rest.

Tefen - **All the advantages in one place** so you can comply with strict health standards and regulations.

Tefen Nozzles

Place the nozzles on the floor ramp to ensure all areas of the vehicle are thoroughly disinfected. Available thread diameters: "1/4, "1/2, "3/4
Pressure range: 2-10 bars

Tefen Dosing Pumps*:

MixRite 2.5 / 3.5

Supply clean water and liquid disinfectants at precise ratios - ensuring comprehensive spray cleaning of all types of vehicles.

- ✓ No premixing chemicals
- ✓ No pre-heating
- ✓ No waste
- ✓ MixRite PVDF available for high concentrated acids

* Non-return valves must be installed before the dosing pump to avoid risk of additives flowing into the water source.
